## Please Note

### TO OUR CUSTOMERS

This price list replaces our general seed catalog for this season. As so many of the items usually stocked and listed are either out or partially out of production for the duration, we think it would be folly to catalog items unless we could deliver.

Our stock on the important items of vegetable seed, while limited, we believe are sufficient to take care of our customers' requirements. We do advise buying judiciously and planting carefully, as food has such an important part in the victory for which we are all sacrificing and fighting. Many vegetable seeds are short and should not be wasted.

As your guide, FOLLOW THE STARS, in selecting from the price list. The popular and recommended varieties are prefixed

\*\*\*\* the leader for market and home garden

\*\*\* 2nd in popularity

\*\* 3rd in popularity

\* 4th in popularity

The figures in parenthesis following variety names indicates the average number of days required from planting until ready to use. Plan carefully and early for your garden seed requirements.

## INFORMATION TO CUSTOMERS

All prices quoted herein are those in effect January 1, 1943 and are F.O.B. Louisville, except where otherwise noted, and subject to change without notice.

**POSTAGE.** We pay postage on all packets, ounces, quarter pounds of Garden and Flower seed at prices named in this list.

**BUNTON SEED COMPANY** gives no warranty, express or implied, as to the productiveness, of any Seeds, or Bulbs, it sells, and will not be in any way responsible for the crop. Our liability, in all instances, is limited to the purchase price of the seeds.

## HYBRID'S 840 and U. S. 13

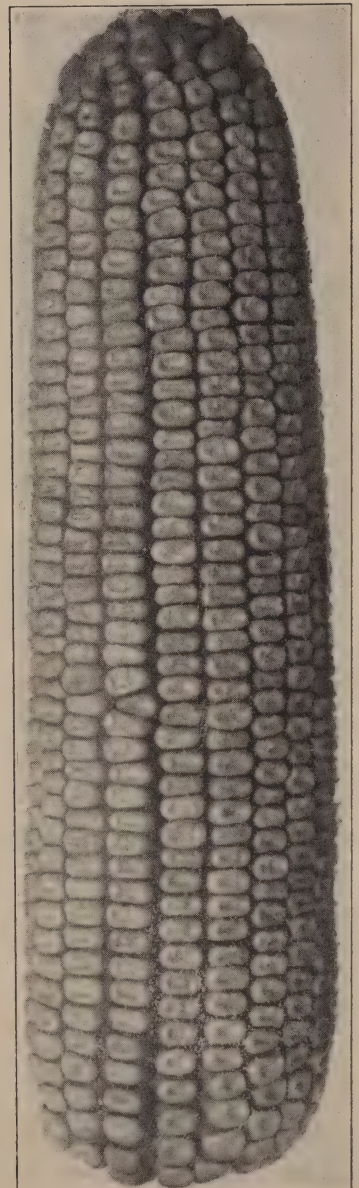

Made the Outstanding Yields  
In 1942

### HOOSIER-CROST HYBRID 840

has a deeper and somewhat softer grain than most of the Yellow Hybrids. The ears are large with some resemblance of Reids Yellow Dent, in fact it is claimed to be bred from that variety. It is well adapted to this section as proven last year by its remarkable yields when compared with other Hybrids—Large Flat Grains—Bu. \$8.00.

### U. S. 13—YELLOW HYBRID

This seems to be the favorite Yellow Hybrid for Kentucky at the present time. It has stood comparative test for several years and so far heads the list of short grain Yellow Hybrids when it comes to yields. Large Flat Grains—Bu. \$8.00.
